

Our goal is that you will be completely satisfied with the installation of our home improvement products, so we provide a comprehensive Installation Warranty for the one-time installation of select products, hardware and devices/peripherals.

This Installation Warranty does not apply to product defects. Product defects are covered under the applicable product warranties. Buyers will receive the applicable product warranties for warranty coverage and limitations applying to respective products.

In addition to any manufacturer warranty extended on the product(s) used (which warranty becomes effective on the date the merchandise is installed), if the workmanship (or application) of any arranged installation by our company proves faulty within two (2) years* after the products are installed, then upon notice from you, we will cause such faults to be corrected by repair at no additional cost to you.

Products should be inspected prior to installation and any defects must be reported at that time. Installation constitutes acceptance of the products. Damage to product caused by accident, misuse, abuse, or improper maintenance is not covered by this warranty.

The proper finishing, care and maintenance of our products are the buyers' responsibility and are important to assuring that their products will perform effectively, year after year.

*The limited warranty on installation for specific products may exceed two years. Please see your contract for the precise length of specific installation warranties.
