### LIFETIME LIMITED WARRANTY

- The extruded solid vinyl members, extruded screen frames, and component mechanical parts, including locks, keepers, balances, and sash retainers, are warranted against defects in material and workmanship for as long as the original purchaser owns and resides in the house in which they are installed.
- Insulating glass is warranted against material obstruction of transparency resulting due to dust, moisture, or film within the insulated glass unit (IGU). Other non-specified Product components and screen defects resulting in a significant impairment of operation or usage are also warranted. Whether an obstruction is material or impairment is significant will be solely determined by the Supplier.
- Products will be free from manufacturing defects resulting in chipping, cracking, peeling, or blistering under conditions of normal wear and service.
- **You must report any scratches, dents, nicks, or similar surface defects in the Product(s) within sixty (60) days after initial installment from the Supplier or lose your warranty remedy for such surface defects.**

### IMPACT WINDOWS

- Impact windows are manufactured so that, when properly installed according to SoftLite's published instructions, they will meet the following standards for areas where high winds and wind-borne debris become a factor: 1) Florida Building Commission standards, 2) American Society for Testing and Materials – E1886 & E1996, 3) Southern Building Code Congress International (SSTD 12), and 4) Texas Department of Insurance – TDI I-98.
- These Products are designed according to the standards above with the understanding that Products may break or be damaged under high-wind circumstances. Accordingly, the Products are not defective in manufacturing or materials (and thus, the Warranty is not breached) if 1) the window glass shatters, or the screen is damaged when impacted by high wind and/or wind-borne debris or 2) flying glass or wind-borne debris damages the frame, screen, or window glass.

## WHAT WE WILL DO

Upon proper notice of a covered claim made within the coverage period, the Supplier will provide the Product replacement parts necessary for the repair of a covered warranty issue. If original parts are not available, the Supplier, at its sole discretion, will provide the closest equivalent part available. If the provision of parts is not commercially practical or cannot be timely made, the Supplier, in its sole discretion, may provide a replacement Product in full satisfaction of this Warranty obligation. The Supplier is not responsible for any costs incurred in repairing or replacing Products or delivery costs, including but not limited to costs relating to inspection, shipping, removal, installation, reinstallation of any Product or repair of any damage, or incidental damage because of any repair. This includes labor or materials to paint or stain any repaired or replaced Product, component, trim, or other required carpentry work.

## COVERAGE PERIODS

The Warranty coverage periods begin on the date of installation of the covered Product(s). The Warranty, subject to the Coverage limitations and exclusions listed, lasts as long as the Product(s) remains where and as originally installed.
